

## People First in Partnership Keeping Safe Feeling Safe (KSFS) Forum

### Working towards a collective impact approach to stop the bullying, harassment and abuse of disabled adults

People First in Partnership held a hui last year to talk about the bullying, harassment and abuse of disabled adults. We now want to continue our journey working together to end abuse of disabled adults.

**“We still have had enough”**  
**Take Action**

**The aim of the forum is** to bring together key people from the police, health, disability sector, disability providers, education, government agencies, and people who are working in the violence prevention sector.

We will look at ways to work together to stop the abuse of disabled adults, in particular the abuse of people with learning/intellectual disabilities.

Participants will be asked to make pledges to take back to their organisations and help make an action plan to stop the abuse of disabled adults. This work will support the government’s commitment to ending the abuse of disabled people.

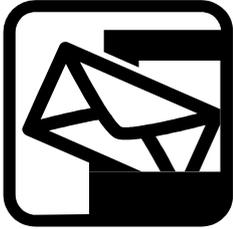

**When: Thursday 16<sup>th</sup> of October 2014**

**Between: 10am to 1:00pm**
